

ECSSO Magento Shipping Filter - Zipcode/City 1.2.x - 1.4.x

The Magento Shipping Filter - Zipcode/City Extension allows the store owner to ship the items to only the selected zipcodes or cities.

Steps for Installation

- 1) Extract the zip file Shippingfilter-Zipcode.zip to any local folder in your machine.
- 2) Copy the all the files from the folder etc/modules/ to /app/etc/modules/ folder in your Magento installation directory.
- 3) Copy the folder in app/code/local/Ecsso to /app/code/local folder in your Magento installation directory

NB: If the magento version is $\geq 1.4.x$ rename the file

'app/code/local/Ecsso/Checkout/Model/Type/Onepage1.4.x.php' to 'Onepage.php' and copy same file to same location in your magento installation folder.

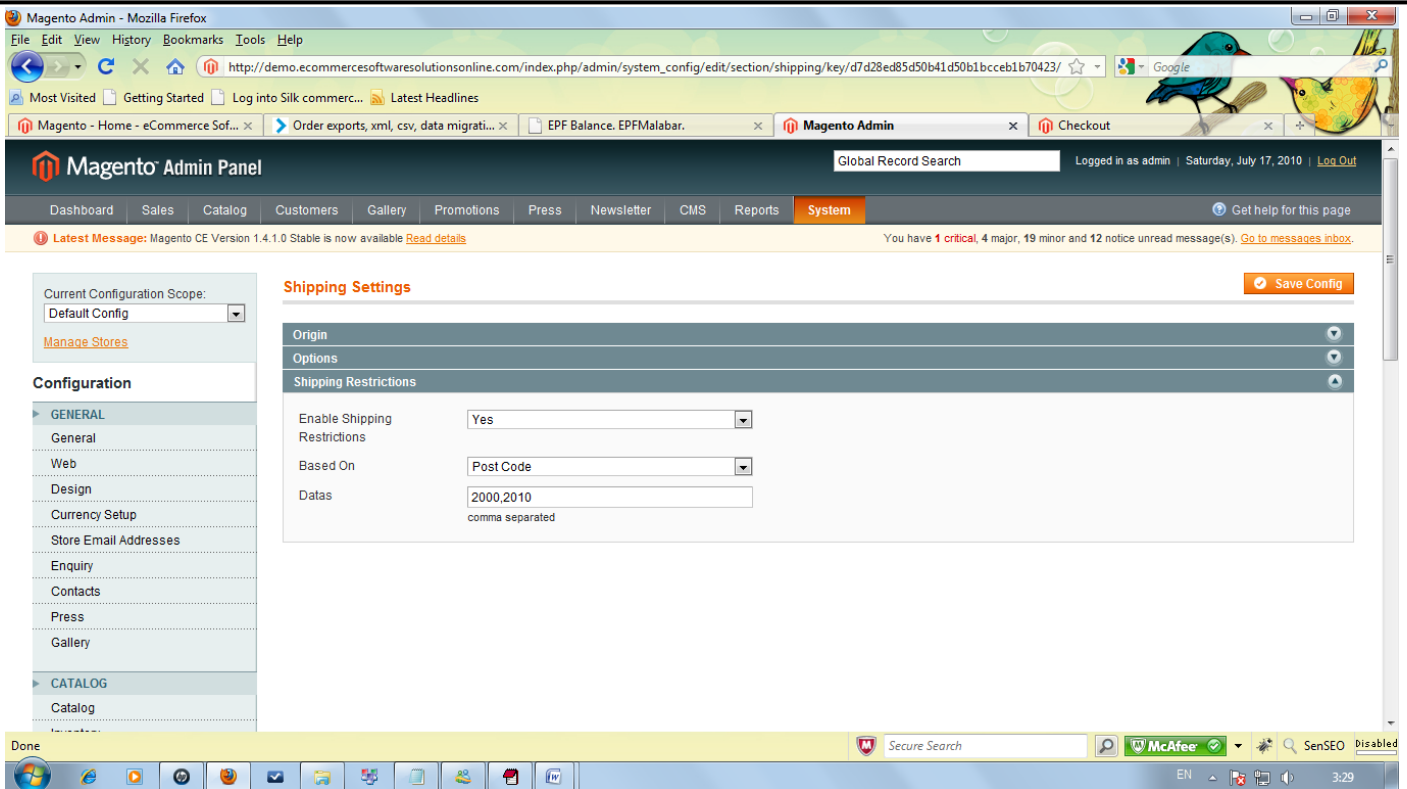

After installing the Magento Shipping Filter - Zipcode/City Extension, we can set details for Shipping Filter - Zipcode/City module through backend.

Through backend, you can set the details for the Magento Shipping Filter by ZIP Code/City Extension/Module.

Go to System-> Configuration-> Shipping Settings-> Shipping Restrictions.

There are three fields 'Enable Shipping Restrictions', 'Based On' & 'Data'. You can set these values as per your requirements.

Based On: The shipping is restricted either by ZIP/Post Code or City. If you select the 'Post Code', enter the allowed postcodes in Data the field, each one is separated by comma and if you select the 'City', enter allowed cities in the Data field, each one is separated by comma.

If the shipping restriction is enabled through Magento Backend, at the time of checkout, while selecting the shipping address, it will allow to the shipment of the items to the selected postcodes or cities only. Otherwise it shows a warning message the shopper telling them that they are not able to have the item they are trying to purchase shipped to that location.
