

ECSSO Shipping Filter Module For Magento 1.2.x - 1.4.x

Before installing ECSSO Shipping filter, Please execute the following sql in corresponding database of magento store

```
insert into eav_attribute  
(entity_type_id,attribute_code,backend_type,frontend_input,frontend_label,is_required,is_user_defined)  
select entity_type_id ,'category_code','varchar','text','Category Code' ,'0','1' from eav_entity_type where  
entity_type_code ='catalog_category';
```

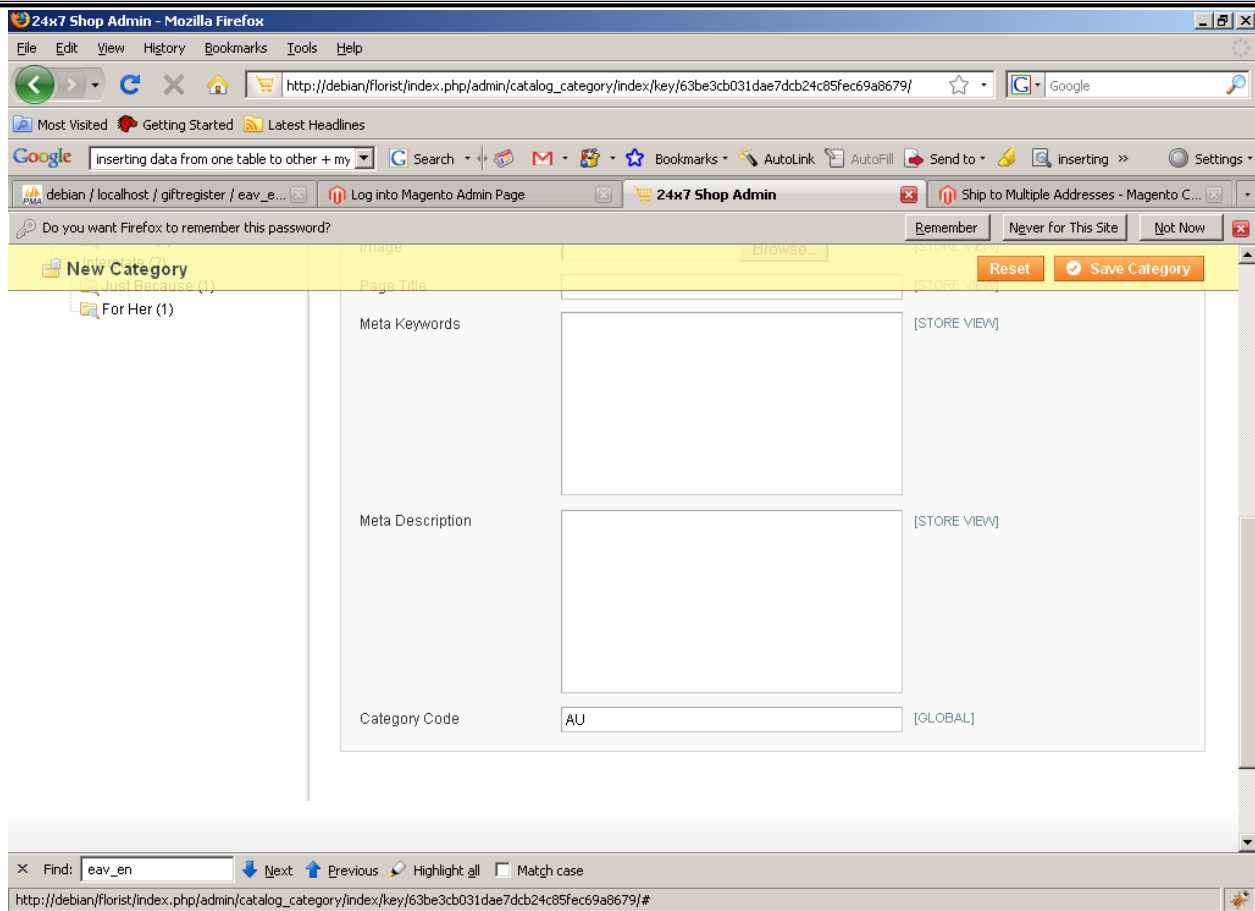

```
INSERT INTO eav_entity_attribute (entity_type_id, attribute_set_id, attribute_group_id, attribute_id,  
sort_order) SELECT (SELECT entity_type_id FROM eav_entity_type WHERE entity_type_code =  
'catalog_category'), (SELECT `attribute_set_id` FROM `eav_attribute_set` WHERE  
`entity_type_id`=(SELECT entity_type_id FROM eav_entity_type WHERE entity_type_code =  
'catalog_category')), (SELECT `attribute_group_id` FROM `eav_attribute_group` WHERE  
`attribute_group_name`='General Information'), max(attribute_id),1 from eav_attribute ;
```

If magento version >=1.4.x

```
INSERT INTO catalog_eav_attribute (attribute_id, is_global, is_visible)  
(SELECT max(attribute_id),1,1 from eav_attribute) ;
```

NB: Please ensure that there is no “special characters” included in the code while doing the copy-paste. To prevent this you can first paste the above code to a notepad, then copy from there and paste to corresponding location. Please insert your table prefix to sql queries, if set any, before executing these queries.

After executing sql statements successfully, it will add a new attribute to country named ‘Category Code’. It is the country code for the categories where the product in that category is to be shipped. The country code must be Magento’s country code. (For Eg: ‘IN’ for India)

Steps for Installation

- 1) Extract the zip file ShippingFilter.zip to the local folder
- 2) Copy file ShippingFilter /app/etc/modules/Ecsso_Checkout.xml to /app/etc/modules
- 3) Copy the full folder ShippingFilter /app/code/local/Ecsso to /app/code/local

After installing Shipping filter, while checkout, it will ask the display the allowed shipping address for all product, if shipping address is entered by customer. You can select the shipping address from list box .
